Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/17/2009 has been entered. Claims 1-4, 7-8 are pending and have been considered on the merits. All amendments and arguments have been considered.

The rejections of record under 35 USC 112, first and second paragraphs, are hereby withdrawn in view of the arguments presented and amendments to the claims.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1 and 7 including dependent claims 2-4, 8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Specifically, the amendment to claims 1 and 7 which claim "...at least 1×10^6

Art Unit: 1657

and at least 3×10^6 ..." introduces new matter, which is not described in the specification as originally filed. Applicant discloses on page 9, 4th paragraph, that by the claimed method 3 to 5×10^6 chondrocytes can be obtained at the first generation of subculture from a human auricular cartilage tissue piece (1 cm^2) and further disclose on page 13 Subculture section, that from the primary culture 1×10^6 cells were seeded in a flask to obtain a subculture. While applicant has support for 1×10^6 and 3 to 5×10^6 cells there is not support for "at least" which does not clearly define the upper limit of cells obtained. Applicant does not have support for an infinite amount of cells obtained. Therefore, "...at least 1×10^6 and at least 3×10^6 ..." in claims 1 and 7 changes the scope of the claims and applicants invention for which no support is provided. **This is a new matter rejection.**

Response to Arguments

Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

Claims 2-4,8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
